Marcilane Antunes
Front-end Developer

PROJECTS

Language Website

Front-end: React and Tailwind CSS.
Back-end: Firebase functions, database and authentication.

This application allows users to sign in, take tests, save their scores, access a personalized progress page, sign up for a newsletter, contact the teacher, and subscribe to a language course.

SKILL

Front-end	Back-end
REACT	FIREBASE FUNCTIONS
JAVASCRIPT	AUTHENTICATION
CSS3	FIRESTORE DATABASE
TAILWIND CSS	CLOUD STORAGE
SASS	

Tools GIT - GITHUB - VSCODE

ABOUT ME

I am a self-taught front-end developer from Brazil, currently based in Lisbon, Portugal. I am very passionate about programming, and would love to have an opportunity to work with the technologies listed here. I am also highly motivated to learn and embrace new technologies to continually enhance my development skills.

My experience teaching in various countries has honed my expertise in language instruction, resulting in solid communication skills and a natural ability to adapt to diverse cultures and environments.
